EFNS Academy for Young Neurologists
4th Course
Hotel Bezděz, Staré Splavy, Czech Republic, May 9-14, 2003

Ninety one participants from 24 countries expressed their full satisfaction with all details of the course: scientific, social as well as organizational. About 12 colleagues expected did not arrive without any explanation and the same number apologized on grounds of bureaucratic complications in their travel documents. Sorry, that all these places could not be occupied by those, who had surpassed the capacity in the preparatory phase. 11 faculty speakers from 6 countries found the audience as being dedicated, well disciplined, active and eager to absorb all the available knowledge in morning sessions as well as in the afternoon workshops. About 10 participants contributed in the workshops by their own cases or by prepared studies on the topic, done in their departments (e.g. Tbilisi, Kazan, Moscow, Chisinau, Brasov etc.). These were commented by our speakers.

The participants took back home a syllabus of 102 pages with high quality texts, EFNS directories on CD and announcements of our upcoming congresses in Helsinki and Paris 2004, 25 pieces of Educational slide sets on Subarachnoid haemorrhage for University teaching, EFNS bags, pencils, EFNS note-pads and Newsletters. They also picked up several decades of older copies of Neurology.

A substantial help was the coverage of flight tickets of speakers by MDS - Europe (including sponsorship of the British Association of neurologists).

Later feedback from Budapest, Prof. Szirmai, chairman.

"I would like to congratulate you for the success of the EFNS Academy which has been held in Staré Splavy. My assistants talked enthusiastically about the high level scientific programme and the pleasant hospitality of the organizers. I checked the Syllabus of the lectures and I was also personally convinced, that this was the best meeting since the founding of the continuous education programme. Something else: your slides set on Subarachnoid bleeding is excellent. I will use it in our English graduate education."

from Moscow, Prof. Skvortsova, chairman

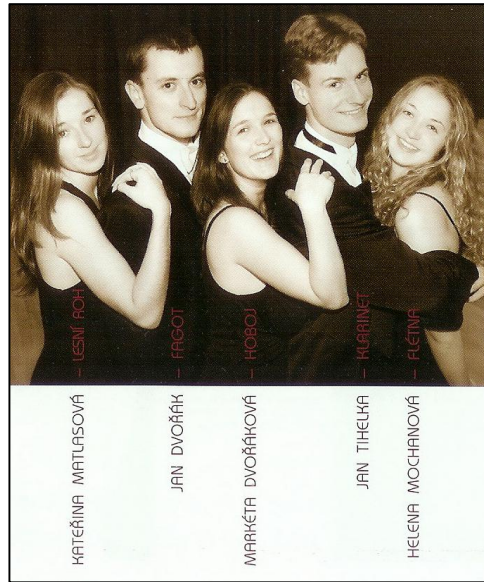

"First of all, allow me to thank you for very interesting and useful educational programme, which you have organized for our young doctors.

I heard a lot of warmest and enthusiastic words to address of yours and your colleagues from my postgraduates."

Thanks to all of you for the positive attitude to our course.

In winter 2002 the castle of Zahrádky burnt out with a huge loss of harboured values. We had to look for a new place for our concert. Thanks to a kind understanding of Dr Leo Dvořáček, dean and administrator of the St.Bartolomeus' church in the nearby Doksy, we could make it true in this church. In addition to our young neurologists also 80 local people attended the concert. Students from Pardubice, H. Mochanová, J. Tihelka, M. Dvořáková, J. Dvořák and K. Matlasová played J. Haydn, F. Danzi, D. Milhaud and V. Trojan. The church, built originally in 1638 has been reconstructed in 18. century. To its most valued objects belongs the statue of Maria of Montserrat (Black Madonna) from 1635. Also the organ of 1628 is of outstanding value.
