

EFNS Vision

Excellence in European Neurology

Missions:

- A strong organisation of European Neurology
- Taking care of neurological patients in Europe
- High quality of neurological health care
- Multidisciplinary collaboration and partnership
- Excellence in clinical neurological research – the cornerstone of progression
- Clinical and basic neuroscience – two interacting themes
- High standards in neurological education
- A platform for teaching activities at European level
- Raising public awareness about neurological disorders in Europe
- Contributing to neurological health care worldwide

The EFNS was founded in 1991 in Vienna, Austria following a decision of each and every neurological society in Europe.

The EFNS has 44 member societies.

EFNS President: Richard Hughes, London, UK

EFNS Secretary General: Detlef Kömpf, Lübeck, Germany

EFNS Head Office

Breite Gasse 4/7

1070 Vienna
